TECHNICAL SKILLS

- **Cybersecurity Analyst:** Security monitoring, threat detection, vulnerability assessment, and application of cybersecurity best practices to protect data integrity and confidentiality.
- **Network Security:** Knowledge of access control, system hardening, and network protection measures.
- **Full-Stack Developer:** Frontend – React, TypeScript, Next.js, Tailwind CSS, ShadCN; Backend – PHP, Node.js, Express.js; Database – MySQL, MongoDB, Supabase.
- **Web Application Development:** Building secure, responsive, and user-friendly web applications.
- **Microsoft Office Tools:** Advanced proficiency in MS Word, Excel, and PowerPoint.
- **Computer Operations & Technical Support:** Operating and troubleshooting computers, scanners, printers, and other IT equipment, while providing end-user support and ensuring system reliability.

WORK EXPERIENCE

IT Support – ABUMDAF (Ahmadu Bello University Muslim Doctors Alumni Forum) 2024 – to date

- Provided technical support for hardware, software, and network systems, ensuring secure and reliable operations.
- Monitored systems for potential vulnerabilities and assisted in incident response activities.

Web Development Tutor – LISFN ABU, Zaria 2022 – 2024

- Conducted hands-on training in web development.
- Taught secure coding practices and web application security.
- Guided students in building their own projects following industry best practices.

Computer Operator – Ma Shaa’Allah Business Center, ABU Zaria 2017 – 2024

- Entered, formatted and printed academic and administrative documents for students and staff.
- Typed, proofread and edited large volumes of data and manuscripts with accuracy and speed.
- Created and maintained electronic and manual filing of clients’ records for easy retrieval.
- Operated and maintained office equipment including computers, scanners and printers.
- Assisted customers with the use of Microsoft Word, Excel and PowerPoint for assignments, projects and presentations.
- Ensured confidentiality and proper handling of customers’ documents.

PROJECTS

Simple Course Management System 2025

- Built a modern course management platform using Next.js and Supabase (PostgreSQL) for database and authentication.
- Implemented course creation, and enrollment features.
- Used Shadcn UI, Tailwind CSS, and TanStack Table for an interactive and responsive interface.
- Integrated React Hook Form with Zod for form validation and seamless user input handling.

Restaurant Management System 2025

- Developed a full-stack restaurant system for handling orders, reservations, and payments.
- Implemented a secure way to make payment using paystack.
- Implemented secure authentication with JWT.

Geo-Enabled Job Platform 2025

- Developed a local job-matching platform connecting employers with skilled laborers such as plumbers, electricians, and tailors.
- Integrated browser geolocation features to match jobs based on location.
- Implemented job posting, application tracking, and employer rating system for laborers’ performance.
- Built with React.js, Express.js, Prisma, and MongoDB for seamless performance and scalability.

LISFN Online Journal Platform 2024

- Built a full-stack platform for publishing and reviewing research papers.
- Developed a secure backend with Next.js and integrated Supabase database and Supabase Storage.
- Implemented user authentication and role-based access control (RBAC) with Clerk.

LEADERSHIP & VOLUNTEER EXPERIENCE

ICT Coordinator – Muslim Students Society of Nigeria (MSSN) IAI ICT ABU

2021 – 2023

- Managed the society's ICT infrastructure.
- Organized training sessions on cybersecurity awareness and ethical hacking.
- Developed a digital communication platform for organizational activities.

SOFT SKILLS

- Critical Thinking & Problem Solving
- Communication & Team Collaboration
- Analytical & Research Skills
- Time Management & Multitasking
